BAMBOU

Le bambou est l'une des plantes à la croissance la plus rapide et constante de la planète, même sans avoir besoin d'une grande quantité d'eau. Cela la rend idéale pour la fabrication de produits de restauration à usage unique, tels que des cure-dents, des piques et des couverts. Vous trouverez ici une large gamme d'articles qui se distinguent par leur légèreté et leur résistance, mais qui sont également durables, car le bambou est un matériau entièrement renouvelable et biodégradable.

BAMBÙ

La pianta di bambù è una delle piante con la crescita più veloce e costante del pianeta, anche senza richiedere un'eccessiva quantità di acqua. Questo la rende ideale per la produzione di prodotti monouso destinati all'ospitalità, come bastoncini, spiedini e posate. Qui troverete una vasta gamma di articoli, che si distinguono per leggerezza e resistenza, ma sono anche sostenibili, poiché il bambù è un materiale completamente rinnovabile e biodegradabile.

BAMBOO

The bamboo plant is one of the fastest and steadiest growing plants on the planet, and requires very little water to grow. That makes it ideal for the production of single-use catering products such as chopsticks, picks and cutlery. Here you will find a wide variety of items, which are characterised by their lightness and strength, but which are also sustainable, as bamboo is a renewable and biodegradable material.
